FARMERS' INSTITUTE BULLETIN.

Places and Dates of County Farmers' Institutes for Nineteen Hundred and Nine.

MEETING IN THIS COUNTY WILL BE HELD AT PINEY.

The Farmers' Institute Bulletin sent us yesterday by Commissioner of Agriculture, M. C. Rankin, was most too lengthy for our space in this issue, in consequence of which we have cut it down to what is most important to this, the Fourth District, namely: His address and the dates of all Institutes of this district.

On the whole, the work of the Farmers' Institute held during the year of 1908 was very satisfactory and shows a marked progress in this important part of progressive Agriculture and is merely in its infancy. The law requires the Commissioner of Agriculture to hold a Farmers' Institute of two days' duration in each county in the State and this law has been complied with in every sense of the word, resulting in a large attendance and much interest. In a majority of the counties the citizens and farmers show that they are interested and want to help and assist in this work. A few do not show any interest and it is almost impossible to arouse any interest or get any attendance at the County Institutes failing to realize what the work is and what results may be obtained, from the expenditure of the State's money in this way. I do not say this in a spirit of criticism, but that people will realize what the work is and means to them.

An organizer or advance man was sent before the Institutes were to be held in the counties composing this district the State having been divided into four Agricultural districts by me for convenience, and he had posters printed, circulars mailed, hall rented and aroused interest by enlisting the business men to give premiums and lend their assistance in every way possible. This feature helped to arouse much interest and injected enthusiasm where before in many of the counties no interest had ever been taken and the most successful meetings were held in these counties. Several counties were unorganized and the organizer made new organizations and I am glad to say we have good workers in almost every county in the State at the present time and the work bids fair to become popular and will be the means of putting many dollars into the farmers' pockets and lending great aid to the agricultural cause. In several counties large premiums lists were given by the farmers and merchants and caused splendid exhibitions to be contested for and enlisted many people in the work that heretofore knew nothing of it.

This caused the work to become known to a larger number of people than had ever been known of it and at each place a splendid nucleus was left to begin the work of 1909. Each force was composed of an advance man, a Director and two Lecturers with the Agricultural Experiment Station men to help in the work and they rendered great and efficient service for which I desire to extend my sincere vote of thanks. I also used Dr. D. McKenzie, of Chicago, Ill., of the McKillip Veterinary College, who did very fine work on the subject of treatment of Live Stock Diseases and How to Feed Live Stock Economically. Also Mr. Otis Crane, of Lebanon, Ind., on "Poultry," and Miss Bertha Miller, of Franklin, Ind., on "Domestic Science." The Institute work was commenced on July 7th and closed

on Nov. 1st. I have decided to begin the work this year two months later as the work suffered in attendance and interest because of the farmers' busy season during the months of July and August. The best meetings were held after September, 1st.

Farmers' Organizations were given special interest on each program and resulted in many clubs becoming active in holding monthly or bi-monthly meetings and causing old clubs to be revived and begin active work. Several new clubs were organized and new members were added to three-fourths of the Farmers' Clubs of the State. More attention will be paid this year to this part of the work. The State Fair was given prominence on every program and aided greatly in helping this great educational and agricultural movement.

One of the greatest hindrances is the appropriation for this important work is too small and I would ask all farmers and citizens to work for an increased appropriation.

OHIO RIVER BAPTIST ASSOCIATION

Convened at Walnut Grove Last Wednesday With Judge J. P. Pierce Moderator.

WEATHER GOOD—LARGEST ATTENDANCE FOR YEARS.

The Ohio River Association went into permanent organization at Walnut Grove Wednesday morning with Judge J. P. Pierce as Moderator and R. A. LaRue, Clerk. Rev. W. C. Pierce made the opening address and it was a masterly one. Notwithstanding it was the first day, the crowd was unusually large and all seemed to have come with an eye and mind for the Master's business. The weather being favorable, the association bids fair to be the largest attended and the most interesting in many years. A great number of visitors are present from a distance and everything is in good shape for entertaining them.

The order of business for Wednesday and Thursday was, Missions, Sabbath Schools, Schools and Colleges, Orphans' Home, Temperance, Aid and Obituaries. These subjects were commenced Wednesday and progress hour yesterday, were still under discussion.

Four places are prominent before the Association for next year's meeting, namely: Crooked Creek, Union, Macedonia and Friendship.

Judge Pierce as Moderator, is settling all questions to the satisfaction of the body and Clerk, LaRue, who has held this important position for so long is the right man in the right place. Surely God is smiling his approval on the meeting. Wish we could have been there if we are a Methodist for many of Baptist preachers are our friends and we love them and their work.

"Lift up your heads O ye gates; and be ye lift up, ye everlasting doors; and the King of glory shall come in."

Company K. Returns Home.

All members of Capt. Henderson's Company of Militia returned from the Annual Encampment at Earlinton Wednesday, reporting the encampment a success in every particular. Great crowds of people, who are always interested in a good organization of State Guards, attended the Encampment each afternoon and evening to witness the dress parade and band concert. The Owensboro Regimental band furnished the music. This band is one of the best in the State.

Tea Third Regiment was inspected by Capt. Houle, of the U. S. A. Sunday morning, and Capt. Henderson was complimented very highly by Capt. Houle on the excellent condition of our Home Company. The people of Earlinton and Madisonville are praised for the marked attention and care of our boys.

The shooting of the local company was above the average which is to their credit as this is the first time this company has had any practice in shooting over the range, while some of the older companies have had years experience.

The third battalion won the battalion contest for the six dollar prize, this being the battalion to which the home company belongs. Capt. Henderson being selected to represent the home company in this shoot.

Capt. Henderson, Lts. Myers, Haynes and Fred Stephen being the best shots in the company.

It is to be hoped that the citizens of Marion and Crittenden county will offer all the encouragement to the home boys, so that the

high standing of the company will not be lost.

The government pays all the expenses of these annual encampments. The one just held supposedly costing \$10,000. Hon. G. Talbott Berry, of Morganfield, the Major of the Third, made himself a general favorite with our boys. This we are proud of as he is our friend and a splendid gentleman.

FALL TERM MARION GRADED SCHOOL OPENS SEPT. SIXTH.

The Fall Term of the Marion Graded School opens, Sept. 6th. The faculty, with the exception of an assistant in the High School who has not been selected at this writing, is as follows:

First Grade, Mrs. Fannie Walker.
Second " Miss Lena Woods.
Third " " Mabel Minner.
Fourth " " Mary Henry.
Fifth " " Ethel Hard.
Sixth " " Iva Hicklin.
Seventh " " Florence Harris.
Eighth " " Margaret Moore.

Substitute teachers for all grades, Miss PEARL JAMES.

We are completing arrangements with the County Board to make the Marion High School also the County High School to which all common school graduates of school age in the county will be entitled to admission free of tuition. This is a very commendable move on the part of the County Board and shows that the members are wide-awake and progressive.

We intend this year to exercise a closer supervision over the daily life of boarding students than we have hitherto done. Parents may send their boys and girls to us with the fullest assurance that they will be cared for both during school hours and outside. If you desire to furnish your children school opportunities which are unsurpassed, we invite you to send them to Marion. Boys and girls who wish to do good, earnest school work are wanted and will be appreciated. Drones and loafers, if there be any, are requested to seek some other school.

We feel that the school was paid a very high compliment by one of our outside patrons who told us, at the close of last school year, that one year in the Marion High School had made a very great change in his son. That he for the first time showed a disposition to want to work, and to amount to something in the world. That he now spent his evenings at home reading instead of loafing on the street. We shall do our utmost to see that the results are equally satisfactory in your case, if you entrust your children to us.

JNO. P. KING, Supt.

Teachers' Institute.

Crittenden County Teachers' Institute will convene, Aug. 23, to 27. The program for the meeting is now being prepared and will probably be distributed by Aug. 18.

Thursday, Aug. 26, has been set apart as "Patron and Trustee's Day." We hope that all trustees and patrons will come and take part in the discussions on this day. Teachers—Take the trouble to see that the trustees and the patrons of your district hear of "Patron and Trustee's Day" and insist on them being present. We hope to have a regular Teachers' campmeeting all week.

Supt. Jno. P. King will be the instructor. He has outlined the work along lines which we believe will be both interesting and helpful to all the teachers in the county. Some of the leading business and professional men of the county will read papers and give talks on special topics. We have tried to place every teacher on the program. Come prepared to discuss, briefly and pointedly, the subject given you. If your name has been overlooked, prepare to discuss some of the various topics in which you are most interested.

THE IDEAL SUPERINTENDENT

Defined By Webster As Something Visionary, Existing Only In Fancy or Imagination.

CHURCH NEEDS REVIVALS OF IDEALS THAT JESUS GAVE

Mr. Webster has defined Ideal as "something visionary, existing only in fancy or imagination." According to this definition no one has ever seen an ideal superintendent, for he is only a creature of the imagination an ignis fatens of the brain. But let us not despise the ideal because it is unseen and unattainable for the "things" which are seen are temporal but the things which are not seen are eternal, saith the scriptures. But we live in an age and in a nation that believes in going after the things that are seen—particularly the "Almighty Dollar" which is a symbol for the things seen. I think perhaps that is one reason the Church of God does not wield the influence it should today.

We are busy seeking after the material things of life to heed the call of the unseen spiritual world. The church today needs a revival of interest in the ideals that Jesus gave the world. He has given to us the greatest of all ideals in the command "Be ye perfect even as your Father which is in Heaven is perfect." Thus are we reminded that every life should have its ideals and the better the ideal, the better the life. The great men of the past, the men who have done most for the progress of humanity have all been men of high ideals. Among the ranks of these benefactors of mankind none deserve greater praise than the faithful superintendent of Sunday School.

Who can estimate the value of their labors upon the hearts and minds of men? It is well therefore, that we should consider some of the characteristics of the ideal Supt.

First of all we notice that he must be a man after God's own heart—A man of human and tender sympathy with a heart full of love to God and man. Such a man will never suppose that he has reached his ideal but like Saul of Tarsus, will always be pressing towards the mark of the prize of the high calling in Christ. He will of course, be a lover of children after the pattern of Him who took the little ones in his arms and blessed them saying, "Of such is the Kingdom of Heaven."—He will study the heart and mind of the child in order to reach and win them for Christ. He should get down to a basis of comradeship and fellow interest with all the school—making their joys his joys and their griefs his griefs after the manner of Paul who was made all things to all men, that he might by all means, save some.

The superintendent must always be a good judge of human nature in order to get the best results from teacher and pupil. He should see that each class is supplied with the best teacher he can secure for that particular class. He should be a student of methods and management of Sunday School. He should endeavor to keep out the rats and secure life and interest in the exercises. I think perhaps many people are kept away from church and Sunday School by the lifeless, listless way in which the services are conducted. We need to learn a lesson from the world here. The Savior's words are still true; "The children of the world are wiser in their generation than the children of light."

There is always plenty of life on the base ball diamond, at the theater, the whist club, the political conventions, etc. The managers of these

enterprises provide to have something doing that will interest the people—even satan himself might teach us the value of making things attractive, for 'tis said, that he is transformed into an angel of light in his efforts to deceive men. We have the greatest of all themes in the gospel of Christ and we are not doing our duty if we do not present it in an interesting way. As an indispensable aid to secure interest in the school the superintendent should possess enthusiasm. Not the turbulent enthusiasm that manifests itself in idle vaporing but the kind the Psalmist describes when he says, "The zeal of thine house hath eaten me up." That kind of a man feels that the Lord is with him and that he can do all things in His strength and his spirit of optimism will provide the whole school.

Above all things, the superintendent should be a man of abiding faith and prayer. Whatever other qualifications he may possess, he is sure to meet with obstacles and discouragements that only these can conquer. He should take for his motto the words of James; "If any man lack wisdom let him of God who giveth to all men liberally and upbraideth not but let him ask in faith." I suppose it is needless to say the superintendent should be punctual for whatever his abilities may be if he is not there when needed, his talent will be wasted. In two ways his absences will injure the school. First, others are likely to follow his example and the attendance will decrease.

Second, his absence will effect the exercises because no substitute can take the place of the regular superintendent.

And now to the membership of the school, I want to say you can have a hand in the making of an ideal superintendent. By your sympathy, co operation and prayers you can help and encourage him in his work. You may uphold his hands as Aaron and Hur stayed up the hands of Moses. Also to the membership we must look for our future superintendent. Let me admonish you therefore to be diligent in the study of God's Holy word and in the development of your heart and mind that you may prove to be "Workmen that need not to be ashamed, rightly dividing the word of Faith."

St. Paul says, "Let us covet earnestly the best. Surely, the work of Sunday School superintendent is second to none save the ministers and every Christian should covet the ability to fill such a position."

There are lots of funny people and things in this world, and some of them we may understand and like while there are others that we may understand without liking or like. For instance I asked one recently: "What is a cow?" and I said: "She is a cow," and when he asked why, I collapsed. I do not know any more why a cow is a cow than I know why an elephant is an elephant or a mouse is a mouse. All I know is: "Jis kaze they is." Just how a goose and a sheep and a cow browse in the same sunshine, eat the same kind of grass and drink the same kind of water and one grows feathers and another grows wool and another grows hair is too much for me. It simply beats my time. I give it up and there you are. I plant seeds in joining rows and get potatoes from one end of a vine and melons from another end of another vine, and bean pods from another vine, and gourds from another and so on until I am bewildered, but seeing them grow together I say: "It must be true." In the beginning God. I like these things but I do not understand them.

Among the people and things I dislike without trying to understand them, the following are listed close to the top of the column, in Catalog A, and marked rejected. I don't like the young fellow who wears his hat on the back of his head and who says "I taken a notion." I don't try to understand him. He is not worth the time it would take. And when it comes to the loud talking and rickety laughing young woman who gives free exhibitions on the train or in the depot my heart overflows with something close akin to an aggravated case of sea sickness. She is simply awful. Hooked up with the fellow with his hat on the back of his head, the team would be great, and its presence would be "grater."

And then the fellow who wants to

sing you a piece he composed or read you a piece he writ, well, he is as big a fool as the young woman who runs away to get married. He is simply the limit. He jars a sensible man out of balance every time.

I can stand the fellow with crushed tomatoe spots on his face and who wears striped socks and pokes you in the ribs at the show and tells you what is coming next. I rather like him,--and in fact would be glad to take a day off at any time to attend his funeral to show my love for him and the same to the to the old fellow who is always telling about the good old times when he was a boy. But we are not all alike and it is well that we are not. The thing would be monotonous. After all may be the proper thing is for a man to strive to make himself adjustable. Let every fellow who goes to Rome learn to shoot Roman canoes, and we will all be stietly all right. Men are liable to change, you know. In the Spring for instance the young mans fancy turns lightly to thoughts of love but in the fall he usually turns his attention to thoughts of grocery bills, millinery bills and the like and in a year or two to thoughts of catnip tea. I like this kind of a fellow because he is progressive. Besides this there is with some folks an innocence of ignorance that is refreshing. A judge on his first visit to the new Court House said: You have a pretty building but its acoustics are bad and then the Sheriff said: really I dont smell any thing it must be the fresh paint. This kind of innocence causes the heart to overflow with love,--and leads one to wonder how it is that the fool killer has never "taken a liking to him a d gathered him in."

This offer is to anyone anywhere. Get up your club and send in at once and we will send you receipt as fast as sent us. Your name will be published with the first dollar sent. Send in your names as candidates for the prize as soon as possible and the amount will be credited in each issue throughout the contest.

Robert Hickman Walker, of Grand Junction, who at the graduating exercises of the Denver University Law School in early June was awarded the faculty prize or the highest honor of the school, by Chancellor Buehtel, for having made the highest average grade each year during the three years' course of the great Western law school, leading all the other members of the class of twenty five men, has captured another honor for himself and at the same time has kept up the enviable and remarkable reputation of the Denver law school, a record that shows that each year for twelve years a Denver law school student has lead all others in the examinations held by the justices of the supreme court of Colorado.

Saturday afternoon the examining committee of the state bar association certified to the clerk of the Colorado supreme court the names of seventy young men, representing numerous states and several of the great law schools of the country, including Columbia University, University of Denver, University of Colorado, Leland Stanford, who were successful in the state bar examination held on June 23 and 24. The results show that the Grand Junction youth, Robert Hickman Walker, graduate of the Denver University Law School, made the highest average of any one of the great class of applicants, his average being 91.3-10.

Denver University carried off three out of four honors, the four leaders being, Oalker, of Grand Junction, D. U., Geo. Jefferies, of Denver, D. U., Chas L. Avery, of Boulder State University and Wm. Eaton, of Denver, D. U.

There is always a great rivalry in the state bar examinations to see who will be the high honor men and to see which law school can claim the leader and for twelve successive years the Denver law school has had a student to take off the highest honors, although each year graduates from nearly every great law school in America have been among the applicants.

With the exception of one eastern state it is said that the Colorado state bar examination is always the most severe and trying in the country. The examination is partially written and partially oral and in the oral test a justice of the supreme court examines each applicant.

Respect Old Age.

Editor, Record-Press.

We are taught in the Bible to respect old age, which we hold sacred, but what a pity that old age many times is subjected to the conditions. We find layed down in Genesis 6-5, God says "He is not the author of confusion," but Bro., Joel Hill turns his monomaniacal gun loose at all changes of the moon in order seemingly to cultivate the evil spirit found in Genesis 6-5. Pray tell us Bro. Joel, where do we as God's children, get authority to run into secular newspapers and fill their columns with strife, etc.

Perhaps it would be wholesome doctrine for Bro. Joel to read 1st Cor. 3:1-15, again 2nd Cor. 10:1-7. The unbelieving Jews thought to kill Christ, they would also kill his doctrine. Did they do it? Not much. So likewise Bro. Joel holds up Solomon to down the doctrine "Once in Grace always in Grace." Does his imagination of his mind make the doctrine stronger or weaker? Bro. King, whom he attacks, would say stronger. Why? Because Cumberland Presbyterians leaves Solomon just where the Bible leaves him, and pray tell us Bro. Joel, where that was. Does not the Bible tell us that God took him? If God took him, is not this all the evidence we need that the devil did not get him and he never went to hell as Bro. Joel seems to insinuate? Hark from the tomb the doleful sound. Old man how are you going to come around Bro. Joel in answer to your scripture quotation in Eze. 18-24 which reads, "All the righteousness that he done shall not be mentioned in the trespasses that he hath trespassed and in the sin he hath sinned in them shall he die?" My much beloved brother please turn to Psalm 89 and you will find your question about looks, answered in the following scripture language is, "If they break thy statutes and keep not my commandments, then will I visit their transgressions with the rod and their iniquity with stripes, nevertheless my loving kindness will I not utterly take from him nor suffer my faithfulness to fail." Again, St. John 10:28-29

which reads, "And I gave unto them eternal life and they shall never perish neither shall any man pluck them out of my hand, my Father which gave them me, is greater than all, and no man is able to pluck them out of my Father's hand." Brother have any more to say about looks? If so I call upon you to produce a more degraded subject than Solomon for I believe he was saved. Furthermore when I hear a minister from one of God's pulpits say to a congregation of people, that he has doubts about it, I very readily think he has never had much Grace to loose. I am not writing to boost Cumberland, for they as well as all other denominations, are being weighed and found wanting. Yes many of our ministers and elders have gotten themselves entirely out side of the Bible by taking Saul's views which can be biblically established regardless of time or your opinion about Grace

Romance in Real Life.

Miss Ida Sturtevant was wedded on Monday evening at 6 o'clock at St. Paul's Pro Cathedral, Los Angeles, Cal. Mention of the wedding was made in Monday's Progress. The groom was her friend in youthful days in Cleveland, Ohio.

The story of her chance meeting when the fleet visited southern California coast points last year is one of real romance. It appears that Miss Sturtevant, who was then clerking in Los Angeles, went on board one of the boats and while talking with one of the officers chanced to mention the fact that a friend of her's a few years previous had been an officer on board one of the battleships. She did not dream that it was one of the battleships then lying but a short distance from her. The officer asked the name and when she gave it said: "Why, I believe he is aboard the supply ship, Glasier. If you will leave a message I will see that it is sent to him this evening by wireless." She did so and the next morning at 9 o'clock the young man walked into the store where she was clerking and the meeting was between lovers.

Before he left southern California he promised to return as soon as his term as chief electrician aboard the Glasier expired and as a pledge of his promise he looked about her neck a silver necklace. It was a large and beautiful treasure which he had secured in a foreign country and he alone held the key. After encircling the globe, he left the fleet on June 29th and came directly to Los Angeles, where he secured a position immediately as an electrician, and they have already built a comfortable home.

Washington's Plague Spots

lie in the low marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude weakness and general debility and bring suffering or death to thousands yearly. But Elceirie Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Louellen, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50 cents. Guaranteed by Jas. H. Orme and Haynes & Taylor.

Letter From Texmo, Okla.

Texmo, Ok., Aug. 15, '09.
Editor Record-Press:—At different times I have thought of giving you a brief sketch of this great Oklahoma country, so now—having at last brought my thoughts to a focus—I will do so. I left Kentucky, the dearest place on earth to me, going by the way of St. Louis for Oklahoma City, one of the leading cities of the West. It has a world-wide attraction and is noted for its commercial activity, which the boosters and real estate men have endeavored to make up to date, as indeed it is. They claim to have more miles of paved streets than any other city twice the size in the

United States and there will soon be a boulevard around the entire city. The city is growing rapidly. In the early spring 100 houses a month were being completed and this would not supply the demand.

Oklahoma has enough natural resources—oil fields, coal banks, gas wells, etc., to make it a great state. As for farm products, it looks like it could not be beat. Whether we go on a railroad train, ride in an automobile, drive in a surry, travel on foot or journey in an air ship, we can see the fertile valleys covered with the growing corn, the blooming cottonfields, the grassy hillsides decorated with the golden sunflower, the level bottoms green with alfalfa, the grazing cattle lining the pasture fields—all these things are promising indeed. It seems as though God had just opened up great treasures for the people.

Oklahoma is the coming state. Eastern people are drifting this way and investing their money. And best of all, the religion of our Lord is growing and people are seeing the reality of it. I find a good grade of people everywhere, though a little more good old Kentucky hospitality in some places than in others. The Lord has been good to me this year. I have been with Evangelist Morton since Jan. 11. He is an able preacher, a Kentucky man and a third cousin to the late Jeff Davis. We have had some fine meetings. I have seen hundreds saved this year. We are now in a meeting, 54 conversions to date. Will continue three days, then go to Sayre, this state.

I regret very much miss our annual campmeeting at Hurricane, for I love my home, my state and my friends. With best wishes for the editor of the Record-Press and all its readers, I am faithfully,

ROBERT LEAR.

Letter From Washington.

Vancouver, Wash., Aug. 10, '09.
Editor Record-Press:—Enclosed find \$1.50 for which please extend my subscription for another year.

I am always glad to get the paper and read the news of "Old Crittenden." Why don't the Repton correspondent continue to write the news? As that is my old home I but naturally want to hear from them often.

Headquarters, Staff, Band and Bat-

teries A. and B., of the Fourth Field Artillery left Vancouver Sunday morning, July, 4th for Grand Ronde. Indian reservation. We crossed the Columbia river at 7 a. m. passed through the principal streets of Portland and reached camp at Tigardville at 2. p. m. having made 22 miles. Directly after night it began to rain and continued to do so for three days and nights, which made our march and camp very disagreeable for us. We camped at Newburg, McMinville and Sheridan during the rain and at McMinville we were allowed to sleep in the National Guards Armory and we sure appreciated the favor.

Thursday, July 8th. we reached Grande Ronde. Indian Agency, where we went into permanent camp.

The Grande Ronde reservation consists of a beautiful, narrow valley, surrounded by a low, pine covered region, the highest peak, about 3,000 feet high, is called called Chestnut Shell, or Spirit Peak, and we had great fun in climbing to the top and viewing the surrounding country. Our baseball team defeated Willamina team twice and the Grand Ronde Indian team twice. We made a good record at target practice and were complimented for our behavior on the trip, which was of course very gratifying, for the behavior of soldiers on a march of that kind is more often condemned than applauded. We were joined at Grande Ronde by Father Sherman, a Catholic Priest and son of the great William T. Sherman of civil war fame. He gave us a very interesting lecture at Sheridan on the return march, July 21. He related numerous incidents of his great father, both at home and in the field when the war was but six years old. He also gave us a brief description of his experience as a Chaplain during the Spanish-American war.

Apoying you every success, I am Yours truly, Fred H. Hillyard, Bat. A. 4th. F. A.

When You Think

Of the pain which many women experience with every
month it makes the gentleness and kindness always associ-
ated with womanhood seem to be almost a miracle.
While in general no woman rebels against what she re-
gards as a natural necessity there is no woman who would
not gladly be free from this recurring period of pain.

**Dr. Pierce's Favorite Prescription makes
weak women strong and sick women
well, and gives them freedom from pain.
It establishes regularity, subdues inflam-
mation, heals ulceration and cures fe-
male weakness.**

Sick women are invited to consult Dr. Pierce by letter,
free. All correspondence strictly private and sacredly
confidential. Write without fear and without fee to World's Dispensary Med-
ical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure
them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing
only, and he will send you a free copy of his great thousand-page illustrated
Common Sense Medical Adviser—revised, up-to-date edition, in paper covers.
In handsome cloth-binding, 31 stamps.

Wanted.

We want all Sunday schools in the
county represented in the county
convention. Will every superinten-
dent see that his school gives some-
thing for the work? All Sunday
school workers should be present at
the convention. Let every school
represented with report of school and
please send what you have pledged
before the county convention. To
raise \$50 before the county conven-
tion. Will you help us?

APPLEGATE.

The Applegate and Repton ball
teams locked horns again Saturday
afternoon on the latter's grounds.
As we said last week, we don't see
how they became possessed with the
delusion that they could play ball,
but they surely won't persist much
longer. For our team lifted the work
from their beleaguered minds by a
score of 10 to 3.

John West and family visited
relatives at Henshaw last week.

Will Crider and family were guests
of Daw Brantly and family, Repton,
Sunday.

William Bird is holding an harbor
meeting near Cave Springs.

The Applegate ball team will play

Hurray for the new Record-Press!

Mr. and Mrs. L. J. Daughtrey
returned Friday from a three weeks'
visit in Missouri.

Mr. and Mrs. Henry Threlkeld, of
Hurricane, and Miss Margaret Moore
of Marion, attended church at Dun
Springs second Sunday.

Protracted meeting closed at Dun
Springs Thursday night.

Miss Iber Horning, of Harrisburg,
Ill., visited Miss Ruth Cook, last
week.

Crossland Murphy spent several
days in this section last week.

Miss Annie Dean will enter State
College, Lexington, in a few days.

C. A. Daughtrey was in Miss
last week.

Si Franklin will have charge of
Hurricane Hotel this year.

Ruth Cook will leave September
6, for Sayre College to enter school.

Ray Daughtrey attended the
Union County fair at Uniontown
last week.

Does Not Color Hair

Ayer's Hair Vigor, as now
made from our new improved
formula, does not stain or color
the hair even to the slightest
degree. Gray hair, white hair,
blonde hair is not made a
shade darker. But it certainly
does stop falling hair. No
question about that.

Does not change the color of the hair.
Formula with each bottle
Show it to your
doctor
Ask him about it,
then do as he says.

Indeed, we believe it will stop every case
of falling hair unless there is some very
unusual complication, something greatly
affecting the general health. Then you
should consult your physician. Also ask
him about the new Ayer's Hair Vigor.

TO Farmers.

We have received a large shipment
of farm wagons. On account of the
low freight rates on the river, we are
in a position to offer some at a
reasonable price. If in need of a
wagon this season it will pay you to
see us before placing your order.

Yours very truly,
A. R. HUGHES
Weston, Ky.
